Case Differences There are 2 variants with different case, one is the retail version(TeamOS) and the other is the factory one(w81). The English version of the retail version is named W81X64.PROVL.ENU.JAN2022.iso while the w81 has its own iso file named W81X64.PROVL.ENU.JAN2022.iso-w81. It's different because of the different hardware but the content and the boot process remains the same. The Difference between these two versions are as follows. 1. The Language: English Retail vs. W81 has Chinese (Simplified). 2. Hardware Difference. The retail version only support DVD for the boot source The w81 support USB Flash, SD and HDD for the boot source. The w81 has a different Microsoft error code The w81 can show "Windows 8.1 Supported" in the USB/SD/HDD boot menu but the retail version can't 3. ISO file Size. f678ea9f9e
